Work Experience

DATES	September 2014 - Now
COMPANY	HiQ / Telia Sonera, Gothenburg, Sweden
POSITION	Front End Web Developer
DESCRIPTION	Consultant at HiQ, working at Vodafone. Worked as part of an agile team at Telia Sonera with different parts of telia.se. I've also done various internal projects at HiQ.
TECHNOLOGIES USED	Magnolia 4, HTML5, CSS3, LESS, AngularJS, jQuery, Jasmine, GitHub, NodeJS, Grunt.

DATES	March 2013 - May 2014
COMPANY	DiUS Computing / Vodafone, Sydney, Australia
POSITION	Front End Web Developer
DESCRIPTION	Consultant at DiUS, working at Vodafone. Built an internal responsive framework to refresh vodafone.com.au (VCA), create reusable components and make look and feel consistent across all three Vodafone sites. I also did other work on VCA and myvodafone.com.au. Worked in agile teams and attended several training sessions in agile methodologies.
TECHNOLOGIES USED	HTML5, CSS3, SASS, AngularJS, jQuery, Jasmine, GitHub, NodeJS, Grunt, Gulp, BackboneJS, FatWire CMS, SVN.

DATES	June 2008 - January 2013
COMPANY	TIBCO Software Spotfire Division, Gothenburg, Sweden
POSITION	Software Developer
DESCRIPTION	Worked in the Visualisations team with both the Windows and the web client. I was mostly doing front end work, focused on visualisations and user interfaces but also back end, data access, client-server integration, etc.
TECHNOLOGIES USED	C#/.NET, Visual Studio, jQuery, HTML, CSS, NUnit, WinForms, ASP, SVN.

DATES	February 2008 - June 2008
COMPANY	Carmenta AB, Gothenburg, Sweden
POSITION	Software Developer
DESCRIPTION	I worked mostly with GIS applications but was also responsible for quality checks on geographical data.
TECHNOLOGIES USED	C#, C++, Carmenta Engine
